

Lab #7: Create dashboard with accordion using Bootstrap. Each accordion contains different bootstrap components.

Tag Used	Attributes Used	Description
<code><!DOCTYPE html></code>	<i>None</i>	Specifies the HTML5 document type declaration.
<code><html></code>	<code>lang="en"</code>	Root element of the HTML document, setting the content language to English.
<code><head></code>	<i>None</i>	Container for metadata, document title, and external CSS stylesheet links.
<code><meta></code>	<code>charset="UTF-8", name="viewport", content="width=device-width, initial-scale=1.0"</code>	Defines metadata including character encoding and mobile-responsive viewport settings.
<code><title></code>	<i>None</i>	Sets the webpage title shown in the browser tab ("Bootstrap Dashboard").
<code><link></code>	<code>href="...", rel="stylesheet"</code>	Imports the external Bootstrap 5 CSS framework.
<code><body></code>	<code>class="bg-light"</code>	Main body container holding all visible web page content with a light background style.

Tag Used	Attributes Used	Description
<div>	class="...", id="...", data-bs-parent="..."	Multi-purpose container used for grid layouts, containers, accordions, cards, alerts, and progress bars.
<h1>	class="fw-bold mb-1"	Top-level main heading for the dashboard title.
<h2>	class="accordion-header"	Secondary heading wrapper for accordion headers.
<h4>	None	Fourth-level heading used for sub-titles inside card content.
<h5>	class="card-title"	Fifth-level heading used for Bootstrap card titles.
<p>	class="..."	Paragraph tag used for body text, subtitles, progress bar labels, and descriptions.
<a>	href="#", class="..."	Hyperlinks styled as buttons within cards for user actions.
<button>	class="...", type="button", data-bs-toggle="collapse", data-bs-target="..."	Interactive buttons used as accordion collapse toggles and UI display buttons.
<table>	class="table"	Container for tabular data inside the responsive wrapper.

Tag Used	Attributes Used	Description
<thead>	<i>None</i>	Groups table header rows (<tr>).
<tbody>	<i>None</i>	Groups table body content rows (<tr>).
<tr>	<i>None</i>	Defines a single row of cells inside a table header or body.
<th>	scope="col", scope="row"	Header cell specifying whether it applies to a column or row.
<td>	<i>None</i>	Standard table data cell containing user information.
	<i>None</i>	Formats text with strong importance (bold styling).
<script>	src="..."	Imports external Bootstrap JavaScript bundle required for interactive elements like the accordion.

Output:

Dashboard

Bootstrap Components

- Cards
- Buttons
- Alerts
- Table
- Paragraph
- Progress Bars
